

COMPANY PROFILE

TFI Chemical

About Company

TFI Chemical is a division created by PT Technology Filter Indonesia. TFI Chemical is the only chemical distributor company in Indonesia that provides complete solutions for the needs of *Industrial raw materials, wastewater treatment, water treatment, the mining sector and ETC.* With an extensive distribution network and integrated logistics system, we are able to meet large-scale and specific demands, reaching all regions of Indonesia efficiently and on time.

We are supported by high-capacity storage and shipping facilities, a reliable transportation fleet, and a team of experienced professionals in their fields. This makes TFI Chemical a major strategic partner for various national industries that require high-quality chemicals and fast and reliable distribution services.

With a commitment to Quality, Reliability, and Compliance with Environmental Regulations , we continue to grow into a market leader that not only provides products, but also provides added value through technical solutions and consulting for each of our clients.

WASTE WATER CHEMICAL

- Poly Aluminium Chloride - PAC
- Polymer Anion / Cation
- Nutrient Bacteria
- Decoloring Agent (DCA)
- pH Adjuster
- Metal Remover
- Disinfectant

WATER CHEMICAL

- Poly Aluminium Chloride - PAC
- Polymer Anion / Cation
- Calcium Chloride (CaCl_2)
- Magnesium Sulfate (MgSO_4)
- Sodium Percarbonate
- Chloride Powder / Liquid
- TCCA Tablet/Granule
- Silica Sand
- Carbon Coconut / Wood
- NaCl
- Resin Anion / Cation

GENERAL INDUSTRY

- Magnesium Chloride Flake
- Calcium Chloride Flake
- NaOH / Natrium Hidroksida
- HCl / Acid Chloride
- Soda Ash
- NaCl
- Citric Acid Monohybrids
- Sodium Citrate

CHEMICAL SPECIALITY

- Algaecide Chemical
- Scale & Corrosion Cooling Tower
- Scale & Corrosion Boiler
- pH Adjuster
- Chemical Cleaning HE
- Demulsifier
- Degreaser Cleaner
- House Keeping
- Chiller

RESIN & ADHESIVE INDUSTRY

- Chloroprene Rubber
- Thermoplastic Polyurethane
- Phenolic Resin
- Petroleum Resin
- Magnesium Oxide
